

MINI-SYMPOSIUM

**Research and innovation on
extracellular vesicles and
exosomes**

- 08th March 2017
- 15:00 to 18:30

Venue:

- **PMPPC seminar room**

Germans Trias i Pujol Research Institut (IGTP)
Carretera de Can Ruti, Camí de les Escoles s/n

Hosts: Francesc E Borrás and Hernando A del Portillo

Speakers:

- **Juan Manuel Falcón (CIC bioGUNE):** "Exosomes as active metabolic machines"
- **Héctor Peinado (CNIO):** "Exosomes and metastasis, the new messengers"
- **Antonio Marcilla (UV):** "Extracellular vesicles from parasitic helminths"
- **Mar Valés (CNB):** "Tumour-derived EVs modulating the immune response"
- **María Yáñez-Mó (UAM):** "Role of tetraspanin-microdomains in exosome biogenesis"
- **Isabel Guerrero (CBM):** "Exosome-mediated Hedgehog signaling in *Drosophila epithelia*"
- **Paolo Bergese (University of Brescia):** "The colloidal side of extracellular vesicles"
